9:00	Introduction to Alaska Native Cultures	Film: <i>Stories Given, Stories Shared, and Living From the Land and Sea</i>	The Alaska Native Heritage Center's Village Sites are not a village, but rather a representation of how each Native culture in Alaska might have lived before Western contact. Traditional skills are taught and practiced throughout the sites, such as belt weaving, hide tanning, and the making of everyday items used by ancestors and Native people today.	Family Learning Art Projects all day in the Southeast Studio located at the end of the Hall of Culture.	9:00
